## biomedical facilities

Biomedical buildings and campuses need to project modern design efficiency and clarity. Bluebird has taken a leadership role in developing wayfinding systems, landmarks and brand environments for these facilities, supporting their larger communication efforts with stunning project executions.

## our capabilities include

### Designer Facilitation

We can provide expert collaboration based on our deep biomedical facility experience.

### Consistent Fabrication Across Mediums

Our project management team is adept at material and color matching for all interior and exterior signs. This supports brand consistency.

### Large Format Printing and Vinyl Application

Utilizing our large format printers, we can create specialty graphics, glass and wall coverings for any environment.

### Metal Fabrication

Our craftspeople produce a wide array of signs, street furniture, architectural elements and exhibition fixtures.

### Brand Environments and Exhibitions

In addition to landmark fabrication and wayfinding, we can also build complete interior environments and interpretive displays.

### Digital, Lighting and Dynamic Integration

We are also expert at incorporating specialty dynamic lighting and digital screens.

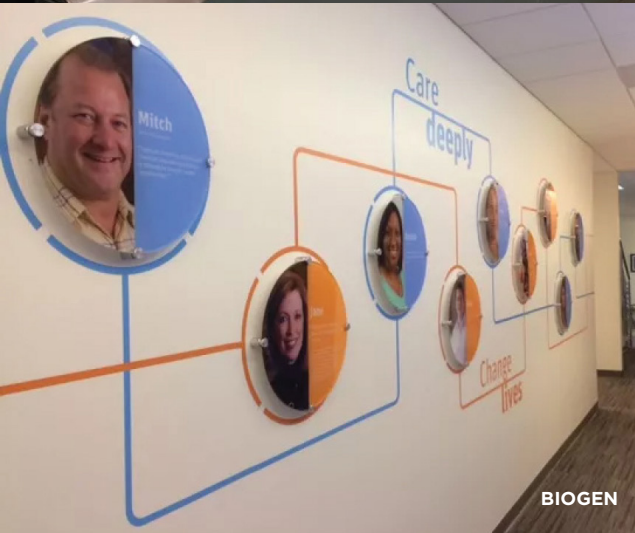

### Installation

Our installation teams can manage implementation wherever our clients need us to be.

### << Project

#### Biomedical

Our diverse skill set has made us the leading fabricator for biomedical organizations including Biomed, WAVE Life Sciences and Intellia Therapeutics.
